INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying statement of fiduciary net position of the City of Delano Employee Pension Plan (the "Plan") as of June 30, 2015, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan, as of June 30, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of changes in the net pension liability and related ratios, schedule of contributions, and schedule of investment returns be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Management has omitted the management's discussion and analysis. Our opinion on the basic financial statements is not affected by this missing information. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

A handwritten signature in blue ink that reads "Davis Fan UP". The signature is written in a cursive, flowing style.

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

For the year ended June 30, 2015

(1) Description of Plan

The following description of the City of Delano Employee Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan was established on June 1, 1967, and is governed by City Ordinance 2011-1221 of the City of Delano's Municipal Code. The ordinance assigns authority to establish and amend the benefit provisions of the Plan to the City Council. It is administered by the Pension Committee and the trustees. The Plan is a single employer public employee retirement defined benefit plan. All full-time management and general employees of the City are eligible to participate in the Plan (prior to July 1, 2005, safety employees were also eligible to participate).

The Plan membership as of June 30, 2015 was comprised as follows:

Active members	214
Retirees currently receiving benefits	82
Terminated members entitled to but not yet receiving benefits	<u>92</u>
Total	<u><u>388</u></u>

Pension Benefits - The annual normal retirement allowance of an employee who retires on a normal retirement date and expressed as a single-life annuity shall be determined by multiplying the employee's years of credited service by a factor which considers the employee's monthly average compensation during the three consecutive years that yield the highest average pay. Employees are entitled to monthly retirement benefits beginning at the normal retirement age of 60. City employees who retire at the normal retirement age receive benefits that are partially integrated with social security and are computed by multiplying the first \$833.33 average monthly compensation by 2% plus the average monthly compensation times 2.4% for the amounts in excess of \$833.33 by the number of years of credited service.

The Plan permits early retirement with reduced retirement benefits at any time within five years preceding the participant's normal retirement date of age 60 (age 62 before July 1, 2007) for general employees; and age 55 for safety employees including management of safety employees. For new employees hired after January 1, 2013, the earliest retirement age is 52 with at least 5 years of credited service. An early retiree would have fewer years of contributions to the Plan and would be drawing a monthly check for a longer period of time, so that the retiree would receive lower benefits per month than an employee who retires at normal retirement age.

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(1) **Description of Plan (Continued)**

At retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his/her account after termination of active service, which will reduce the actuarially determined pension payments as previously described.

Death and disability benefits - The spouse of a participant will receive a 50%, 66 2/3%, or 100% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50%, 66 2/3%, or 100% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits. On termination due to death, benefits to the surviving spouse, lump-sum or otherwise, will depend upon whether the retiree has reached the early retirement age at the time of death which is 55 for general members. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Vesting - Pension benefit distributions are based upon a combination of age, years or service, monthly salary, and the retirement option selected by the participant. Vesting is 100 percent upon death. Members' contributions, including interest, are 100 percent vested at all times. Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
3	20%
4	40%
5	60%
6	80%
7 or more	100%

Vested amounts are not payable until the member attains the age of 60 for general and management members and 55 for safety members.

Contributions – Contributions are made by the members and the employer at rates recommended by the Plan's independent actuary and adopted by the City Council. Participant contributions are mandatory as long as the employee is an eligible participant of the Plan. The City makes employer contributions after the 5th year of covered employment for all participants except management employees, the employer contributions are made immediately after being admitted to the Plan. The participant's accumulated contribution cannot be withdrawn by the participant (except for active police officers, their respective account balances were transferred to CalPERS, effective June 30, 2005) while employed by the City.

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(1) **Description of Plan (Continued)**

The participant's contribution rates, which are a percentage of the participant's base monthly salary (excluding overtime, educational, incentive and/or longevity), are as follows:

Management (including police management)	9.0%
Safety/Police (prior to July 1, 2005)	7.4%
General	6.2%

The City makes the above contribution on behalf of its employees based on the participants' basic earnings, years of service, and job classification, except educational, incentive or longevity pay, which is excluded from the participant's basic earnings. Participant accounts are credited with interest at 6% per year.

Effective June 1, 2013 for management employees, and December 29, 2012 for general employees, all members not contributing shall be required to pay 3% of their base pay towards retirement. All existing General unit members currently paying 6.2% of their base pay towards retirement will continue to pay 6.2% until their 5th year of service. The first pay period 5 years after their hire date, General unit members shall be required to pay 3% of their base pay towards retirement. Newly hired General unit members on or after January 1, 2013 shall be required to pay 6.2% or 50% of normal cost, whichever is greater. Newly hired Management unit members on or after January 1, 2013 shall be required to pay 9% or 50% of normal cost, whichever is greater.

In addition the City contributes a percentage of employee base monthly salary for an actuarially sound pension program based on the actuarial valuation report. Administrative costs of the Plan are financed through investment earnings.

Termination - For termination of service due to other reasons, a participant may receive the value of the vested interest in his/her account as a lump-sum distribution. In the instances where the terminated participant is not eligible to receive a lump-sum distribution, the participant is only eligible to receive the account balance of his/her accumulated contributions. In some cases, a deferred annuity remains.

(2) **Summary of Significant Accounting Policies**

Reporting entity - The Plan, with its own governing board, is an independent public employee defined benefit plan. The Plan's annual financial statements are included in the City of Delano's Annual Financial Report as a pension trust fund.

Measurement focus and basis of accounting – The Plan's operations are accounted for on an economic resources measurement focus and the accrual basis of accounting. Employer and member contributions are recognized when due pursuant to formal commitments, as well as statutory or contractual requirements. Investment income is recognized as revenue when earned. Retirement benefits and refunds are recognized when due and payable in accordance with terms of the Plan. Other expenses are

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(2) Summary of Significant Accounting Policies (Continued)

recognized when the corresponding liabilities are incurred. The net appreciation in fair value of investments is recorded as an increase to investment income based on the valuation of investments. The entire expense of Plan administration is charged against the earnings of the Plan. Investment earnings are reduced for investment management fees, portfolio evaluation, and custodial services.

Use of estimates - The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investment valuation – Short-term investments consist of deposits held by money market mutual funds which are invested in short-term U.S. government securities and diversified money market mutual funds. These investments, as well as investments in other mutual funds, corporate debt securities, foreign and municipal issues, and common stocks are carried at current fair market value.

Investments in group annuity contracts with insurance companies are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to make benefit payments and pay administrative expenses.

(3) Cash and Investments

Cash and investments consist of the following as of June 30, 2015:

Cash and cash equivalents	\$ 1,534,264
Investments	<u>25,246,591</u>
Total cash and investments	<u>\$ 26,780,855</u>

A. Deposits

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The Plan's deposit policy requires deposits to be covered by federal depository insurance and collateral having a market value of 110% of the uninsured deposit. As of June 30, 2015, the Plan has a bank balance of \$1,534,264. Of the bank balance, \$1,534,264 was covered by federal depository insurance or collateral held by the Plan's agent in the Plan or agent's name. Included in cash and cash equivalents are money market funds totaling \$1,322,354 of which \$0 was exposed to custodial credit risk.

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(3) **Cash and Investments (Continued)**

B. Investments

Investments consist of the following as of June 30, 2015:

Domestic stocks	\$ 14,422,370
International stocks	3,820,679
Guaranteed investment contract	4,382,430
Mutual funds	1,271,606
Annuities	<u>1,349,506</u>
Total investments	<u>\$ 25,246,591</u>

Authorized Investments - The investments listed above are managed by the trustee under the direction of the City of Delano Pension Committee. The Plan has not adopted a formal investment policy. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

The Plan's investments are held by various agents consisting of insurance companies, financial institutions, and nationally recognized brokerage firms. The investments may be held in direct form, pooled form, or both.

Rate of return - For the year ended June 30, 2015, the annual money-weighted rate of return on Plan investments, net of investment expense, was 3.44 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Custodial Credit Risk - For an investment held in the form of securities, custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the Plan's investments, \$18,819,001 is subject to custodial credit risk. These securities are held by the Plan's agents or brokers and they are not held in the Plan's name.

Credit Risk and Interest Rate Risk - Investments subject to credit risk and interest rate risk consist of the following as of June 30, 2015:

Investment Type	Ratings as of Year End	
	Not Rated	Total
Domestic stocks	\$ 14,422,370	14,422,370
International stocks	3,820,679	3,820,679
Guaranteed investment contract	4,382,430	4,382,430
Mutual funds	1,271,606	1,271,606
Annuities	<u>1,349,506</u>	<u>1,349,506</u>
Total investments	<u>\$ 25,246,591</u>	<u>25,246,591</u>

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(3) Cash and Investments (Continued)

<u>Investment Types</u>	<u>Amount</u>	<u>Less than 1 Year</u>	<u>1 to 5 Years</u>	<u>More than 5 Years</u>
Domestic stocks	\$ 14,422,370	14,422,370	-	-
International stocks	3,820,679	3,820,679	-	-
Guaranteed investment contract	4,382,430	641,308	3,741,122	-
Mutual funds	1,271,606	1,271,606	-	-
Annuities	1,349,506	-	-	1,349,506
	<u>\$ 25,246,591</u>	<u>20,155,963</u>	<u>3,741,122</u>	<u>1,349,506</u>

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk can be measured by obtaining ratings issued by nationally recognized statistical rating organizations such as Standard & Poor's or, Moody's Investors service, to name a few. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater will be the sensitivity of its fair value to changes in market interest rates.

Concentration of Credit Risk - The Plan is required, under GASB 40, to provide information about the concentration of credit risk associated with their investments in any one issuer that represent 5% or more of total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

The Plan places no limit on the amount the Plan may invest in any one issuer. The investment that represents more than 5% of the Plan's total investments consists of the following as of June 30, 2015:

<u>Issuer</u>	<u>Type of Investment</u>	<u>Amount</u>
Great West Life and Annuity Insurance Company	Guaranteed investment contract	\$4,382,430

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(4) Net Pension Liability

The components of the net pension liability of the City of Delano at June 30, 2015, were as follows:

Total pension liability	\$ 45,727,758
Less: plan fiduciary net position	<u>(26,843,044)</u>
Net pension liability	<u>\$ 18,884,714</u>
Plan fiduciary net position as a percentage of total pension liability	59%

Actuarial Methods and Assumption – The total pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Asset Valuation Method	Investment gains and losses spread over a 5-year fixed period Not less than 80% nor more than 120% of market value
Actuarial Assumptions	
Discount Rate	7.00%
Inflation	3.00%
Payroll Growth	3.25%
Investment Rate of Return	7.00% net of investment expenses

Mortality rates were based on the 1994 Group Annuity Mortality Tables for Males or Females, as appropriate, with adjustments based on Scale AA for mortality improvement from 1994 to 1999.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 (see the discussion of the pension plan's investment policy) are summarized in the following table:

Asset Class	New Strategic Allocation	Expected Real Rate of Return
Equities	67.9%	5.35%
Fixed Income	14.4%	1.55%
Cash	17.7%	0.45%

CITY OF DELANO EMPLOYEE PENSION PLAN

Notes to the Financial Statements

(Continued)

(4) Net Pension Liability (Continued)

Discount rate - The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate - The following presents the net pension liability of the Plan as of the Measurement Date, calculated using the discount rate of 7.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.00 percent) or 1 percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.0%)	Current discount rate (7.0%)	1% Increase (8.0%)
City's net pension liability	\$ 25,191,808	18,884,714	13,679,837

(5) Tax status

The Internal Revenue Service has determined and informed the City of Delano by letter dated January 31, 2012, that the Plan (as restated July 1, 2010) and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code.

(6) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of fiduciary net position.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

REQUIRED SUPPLEMENTARY INFORMATION
