

NOTICE ON Park Closures

EFFECTIVE IMMEDIATELY

COVID-19

IS spreading in our region.

The virus spreads through respiratory droplets, which are easy to breathe in if you are close to someone who is sick.

It may unknowingly transfer from your HANDS to your NOSE and MOUTH and enter your body.

Outdoor exercise is encouraged with social distancing.

DO'S

Go outdoors for a jog or walk your dog. Limit outdoor socializing if possible.

Ride a bike. Due to park closures, be prepared for public park restrooms to be closed.

Go for a hike. Be aware of state park closures and hours of operations.

DON'TS

Congregate in groups. Avoid sitting and gathering on PARK BENCHES and PLAYGROUNDS.

Avoid mass gatherings. Do the best you can when visiting grocery stores, banks and other public areas.

Avoid shaking hands, giving hugs and touching your face.

Our Police Department COVID-19 Task Force will be enforcing California's Stay-At-Home order. CDC is now recommending we do not hold EVENTS, MEETINGS or GATHERINGS with more than 10 people.
